**EXPERIENCE**

Jered Widmer joined The Lighting Practice in 2001 upon graduation from The Pennsylvania State University. He has been designing architectural lighting for corporate, retail, historic, hospitality, education, healthcare and places of worship. The diverse work in these sectors allows him to merge creative principles and techniques to enhance the user environment for a more successful project. He educates clients and team members through a collaborative design process, facilitating a better understanding of the impact of lighting. Jered's passion for digital technology and smart home integration has fueled his pursuit of understanding IoT and Smart Lighting applications and their benefit to our clients and project sectors. He has collaborated with both retail and corporate clients to deliver smart lighting solutions that enhance the user experience and deliver detailed data for improved operational efficiencies.
