**YEARS WITH FIRM: 13**

## EXPERIENCE

Ryan Conover is an Associate with The Lighting Practice. Since joining TLP in 2011, Ryan has designed lighting systems for a variety of project environments including academic, corporate, historic, healthcare, retail and infrastructure. Ryan's passion for lighting and human well-being merged when he achieved his EDAC certification and has taken on the role of evidence-based design coordinator at The Lighting Practice. Ryan is committed to educating his peers, clients, and himself on the impact of electric light on human physiology and well-being. He develops architectural lighting design solutions for the built environment that meet energy and safety codes, balance aesthetics, and support human health.

## EDUCATION
